

STEP INTO THE FUTURE PALM FIRST

Access, Attendance, & Intelligence - All in One

invokeisdata.com

THE PALM DEVICE

A smarter, safer way to manage people

Palm Recognition Technology

Advanced biometric scanning using palm vein patterns. Highly secure and nearly impossible to duplicate.

Fully Contactless

No pins, no cards, no shared surfaces. Just a hygienic, seamless scan to enter.

Fast, Frictionless Entry

Instant recognition at checkpoints — perfect for busy, high-traffic environments.

Facility-Wide Use

Register on one device and be recognised by all other facility devices.

Smart Integration, Smooth Operation

Works with magnetic locks and fits easily into your existing systems and infrastructure.

DIGITISING OFFICES

Access is no longer just about building security, it's the first step in modernising your workplace.

Smarter entry systems unlock automation, real-time workforce visibility, and safer workplaces.

invokeisdata.com

Automatic & Accurate Attendance

Every palm scan logs attendance in real time, giving HR and operations full visibility of staff presence without manual check-ins.

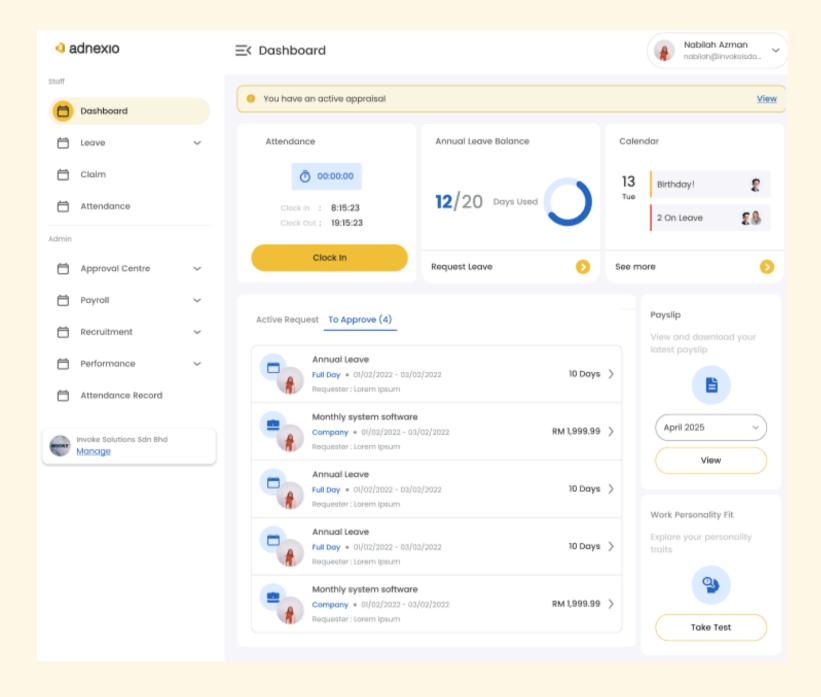

Role-Based Access Control

Only verified palms unlock entry, helping you control who can access specific floors, rooms, or secure facilities.

Frictionless Entry

No more keycards, PINs or reception bottlenecks. Employees enjoy a smooth, contactless check-in experience.

A single platform that gives you real-time visibility, automation, and insights to manage people smarter, and faster

LIVE ATTENDANCE TRACKING

See real-time presence across locations, and departments

ALL-IN-ONE HR SUITE

Automates leave, payroll, compliance, and performance reviews

Auto-generated reports for audits and HR standards

SMART WORKFORCE INSIGHTS

Supports decisionmaking from onboarding to career progression

DIGITISING RETAIL & ENTERTAINMENT

Access is no longer just about getting through the door — it's the first step in creating a **smoother**, **smarter guest experience**.

invokeisdata.com

Fast, Seamless Entry

Each palm scan verifies bookings instantly - no tickets, no QR codes, no hold-ups, making it ideal to manage peak-hour crowds.

Only registered palms can access member-only benefits or spaces, stopping pass-around abuse and ensuring perks are used by paying customers.

Loyalty Integration

Use palm to scan and trigger points collection and redemption when making membership-related purchases.

DIGITISING FACTORIES & WAREHOUSES

Access isn't just about entering the building, it's the first step in running a safer, more efficient industrial operation.

Smarter entry systems deliver automated tracking, role-based access, and real-time visibility across all shifts and zones.

invokeisdata.com

Quick, Contactless Clock-Ins

Each palm scan records staff entry instantly, with no need for punch cards, queues, or manual input. Ideal for high-volume shift changes.

Role-Based Access Control

Restrict access to production floors, storage areas, or control rooms based on job roles. Only authorised staff can enter critical zones.

Real-Time Workforce Visibility

Monitor who's on-site, where, and when - across shifts, departments, and multiple warehouses.

DIGITISING HEALTHCARE

Access isn't just about entering the building, it's a critical part of keeping patients safe, staff accountable, and operations running smoothly.

invokeisdata.com

Every palm scan records staff and visitor entry instantly. With no shared surfaces, keypads, or ID badges, *Palm* is built for sterile environments.

Limit entry to ICUs, pharmacies, or records rooms by role or schedule, easing compliance and safety.

Real-Time Staff Presence Tracking

See who is on duty, where, and when, across departments, shifts, or locations, all from one secure dashboard.

DIGITISING SCHOOLS

Access is no longer just about security, it's the first step in digitising your school.

Smarter entry systems unlock automation, real-time data, and safer, more connected campuses.

invokeisdata.com

Automatic & Accurate Attendance

Every palm scan records attendance instantly — giving schools real-time visibility of students, staff, and visitors without manual input.

Enhanced Campus Security

Only verified palms grant access, reducing risks of tailgating, lost cards, or unauthorised entry.

Cashless Student Payments

Link student palms to parent-managed wallets for fast, secure payments at canteens and bookshops — no cash, no cards, no fuss.

DIGITISING PROPERTY MANAGEMENT

Access isn't just about who gets in — it's about making **residential living safer**, **smarter**, and more **seamless**.

invokeisdata.com

Automated Entry

Palm scans log entry and attendance instantly – no cards, no pins, no manual logbooks.

Control who can enter specific rooms, floors, or buildings — and when. Whether it's cleaners, security staff, or external vendors, access is only granted to registered, authorised individuals.

Real-Time Visibility

Know exactly who is on-site, where, and when. Track staff deployment, contractor presence, and visitor access from a single dashboard.

READY TO STEP INTO THE FUTURE?

Take the first step toward a smarter, more secure organisation.
